Summary

Computer Science graduate with First-Class Honors and experience as a Web Developer & Backend Developer specializing in Django, Laravel, CMS platforms, and API integrations. Skilled in backend systems, e-commerce solutions, and full-stack development, with expertise in MySQL, REST APIs, and cloud deployment.

Technical Skills

- Backend Development: Django, Laravel, PHP, Python, REST APIs, Node.js
- Frontend Technologies: HTML, CSS, JavaScript, React.js
- CMS & E-commerce: WordPress, Magento, WooCommerce
- Databases: MySQL, PostgreSQL, MongoDB
- Cloud & Deployment: cPanel, Docker
- Version Control: Git, GitHub

Experience

Sep 2024 - Jan 2025

Web Development Intern - DataSaturn Pvt Ltd, Nepal

- Developed and maintained 3+ real-world applications.
- Worked with WordPress & Magento, customizing themes, plugins, and optimizing performance.
- Contributed to a Laravel-based project, implementing backend functionalities and database handling.
- Collaborated on troubleshooting, debugging, and deploying applications efficiently.

Projects

Accommodation Booking System (Solo Project – Full-Stack Developer)

- Built a full-featured booking platform using Django (backend) & HTML, CSS, JavaScript (frontend).
- Integrated Khalti Payment Gateway for secure transactions.
- Used Google Maps API to enable interactive location-based searches.
- Designed and managed a MySQL database for storing user, property, and booking details.

Agriculture Management System (Lead Developer – Backend)

- Led a team of developers in creating a Django-based agriculture platform for farmers and buyers.
- Developed the e-commerce module, enabling farmers to list and sell their products.
- Implemented secure authentication & role-based access control.
- Managed and optimized a MySQL database for efficient data handling.

Education

University of Wolverhampton

Nov 2021 - June 2024

Bachelor of Science (Hons) in Computer Science
